THE ELECTRIC MATERIALS COMPANY			SAFETY DATA SHEET (SDS)				
COMMUTATORS-EXTRUSIONS-ROTOR BAR-CASTINGS-FORGINGS				ID: C	24000		
				DATE ISSU	ED: 5	/28/2015	
SECTION 1 – PRODUCT IDENTIFICATION & COMPANY INFORMATION							
PRODU	CT NAM	E: C	C24000 RED BRASS METAL COPPER ALLOY				
OTHER DESIG	NATION	IS:					
PRODUCT IDENTIF	ICATIO	N: C	Copper and Copper Alloys				
MANUFACTURER'S INFORMATION:			THE ELECTRIC MATERIALS COMPANY 50 SOUTH WASHINGTON STREET NORTH EAST, PA 16428				
EMERGENCY PH	ONE NC	D.: 8	314-725-9621	WEBSITE:	www	.ELECMAT.COM	
	RECOMMENDED USE AND RESTRICTIONS ON USE: Manufacturing & Industry for non-structural components predominantly to conduct electrical current.						
		S	ECTION 2 - HAZARD IDENTIFICA	ATION			
Copper and copper alloys are considered on "article" and not hazardous in its CLASSIFICATION: solid from. However, certain processes such as cutting, milling, grinding, melti and welding could result in some hazardous materials being emitted.					milling, grinding, melting		
OTHER INFORMATION:			Fumes from hot processes may contain other compounds with different exposure limits. Dust or fumes generated by machining, grinding, welding or thermal cutting of the copper may produce airborne contaminants. Consult Sections 3 & 8 for further information.				
	SECTION	N 3 – (COMPOSITION/INFORMATION				
CHEMICAL NAME			COMMON NAME	CAS	5#	PERCENT WEIGHT	
Cu Zn			Copper Zinc	7440-50-8 1314-13-2		80.0% 20.0%	
SECTION 4 – FIRST AID MEASURES							
EYE CONTACT:	Eye injuries from solid particles should receive immediate medical attention. Dust may be flushed from eyes immediately with large amounts of water, lifting the lower and upper lids occasionally; seek medical attention.						
SKIN CONTACT:	Cuts or abrasions should be treated promptly with thorough cleansing of the affected area. Wash the skin using soap or mild detergent and water. Get medical attention if irritation develops and persists.						
INGESTION:	If the product or dust is swallowed, seek immediate medical attention or advice. Do not induce vomiting.						
INHALATION:	If breathing has stopped, perform artificial respiration and obtain medical aid immediately. If breathing is difficult, provide fresh air and seek medical attention as soon as possible.						
SECTION 5 – FIREFIGHTING MEASURES							

ELAMMABLE P		Not	annlicable			
			Not applicable Not applicable; non-combustible

			met	al oxides.		
SECTION 11 – TOXICOLOGICAL INFORMATION						
POTENTIAL HEALTH EFFECTS	S: Symptoms related	to the physical, c	nemical an	d toxicologio	cal characteristics	
Under normal handling and u	Under normal handling and use, exposure to product presents few health hazards. Dusts may cause mechanical					
irritations to eyes and skin. I	irritations to eyes and skin. Ingestion may cause transient irritation of throat, stomach and gastrointestinal tract.					
Inhalation may cause coughing, nose and throat irritation, and sneezing. Higher dust exposures may cause difficulty						
breathing, congestion, and chest tightness.						
EYE CONTACT:	If present as dust, copper may cause irritation, discoloration, and damage. As a foreign					
	body in the lens, copper dust may cause a dense cataract and discolor the lens.					
SKIN:	Copper can cause some irritation with possible discoloration of skin.					
	Ingestion of significant amounts of welding electrodes is unlikely. If copper is					
INGESTION:	swallowed and person is conscious, give large quantities of water to drink. Get medical					
indestion.	attention as soon as possible. Serious effects may occur if large amounts of dust are					
	swallowed.					
	-		•		with pre-existing chronic	
INHALATION:	respiratory disease. Follow exposure guidelines for copper dust and fume. Acute					
	exposure to dust or fume may cause upper respiratory tract irritation, metallic taste in					
		, fatigue, and/or metal fume fever. Breathing copper dust may worsen				
symptoms of individuals with pre-existing chronic respiratory disease.						
Carcinogen Classification of Ingredients						
Ingredient	t	OSHA	NTP	IARC	Target Organ	
None						

TERMS:

OSHA – Occupational Safety & Health Administration

Y = Listed as a human carcinogen

- NTP National Toxicology Program
 - K = Known to be a human carcinogen
 - R = Reasonably anticipated to be a human carcinogen (RAHC)

IARC – International Agency for Research on Cancer

1 = Carcinogenic to humans

2A = Probably carcinogenic to humans

2B = Possibly carcinogenic to humans

3 = Unclassifiable as to carcinogenicity to humans

4 = Probably not carcinogenic to humans

Other –

NL = Not listed

SECTION 12 – ECOLOGICAL INFORMATION

ECOTOXICITY	PERSISTENCE AND DEGRADABILITY
Not applicable	Not applicable
BIOACCUMULATION POTENTIAL	MOBILITY IN SOIL
Not applicable	Not applicable

OTHER ADVERSE EFFECTS

Copper metal is relatively insoluble in water and, therefore, generally has low bioavailability. This product is not expected to present an environmental hazard. Avoid releasing dusts and fumes into the environment.

SECTION 13 – DISPOSAL CONSIDERATIONS

Recover or Recycle if possible. Dispose of according to Federal, State and Local Regulations. Dust collected from machining, welding, etc. may be classified as a hazardous waste. Consult Federal, State and Local regulations.

SECTION 14 – TRANSPORT INFORMATION
